REMARKS

Reconsideration and allowance of the above-referenced application are respectfully requested.

New claims and claim amendments are presented herein to obviate the current rejection. No new matter has been added

Claim 21 has been rejected under 35 USC § 102(b) as allegedly being anticipated by Matshushita. These rejections are respectfully traversed. Notwithstanding, in an effort to expedite the allowance of the current application, claims 1-6, 13-16, and 21 have been canceled.

As claims 17-20 have been indicated as allowable, it is respectfully submitted that new claims 21-29 are also allowable based on similar reasoning.

It is believed that all of the pending claims have been addressed in this paper. However, failure to address a specific rejection, issue or comment, does not signify agreement with or concession of that rejection, issue or comment. In addition, because the arguments made above are not intended to be exhaustive, there may be reasons for patentability of any or all pending claims (or other claims) that have not been expressed. Finally, nothing in this paper should be construed as an intent
